Ms. Caroline Lagan,
Marketing Executive,
Sperrin Metal Products Ltd.,
Cahore Road,
Draperstown,
N. Ireland.

18th March, 2005

Dear Caroline,

Our new library is now open almost two years. GMIT students and staff are very happy in their new surroundings and it is a hub of activity throughout the academic year.

Sperrin Metal shelving was installed in the library and it has proved to be very satisfactory. Seamus Coyle from your company worked closely with us to ensure that the shelves supplied met our needs.

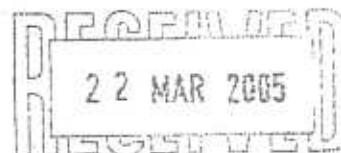

The installation was carried out in a very professional manner by your staff in accordance with the architect's plan.

We are happy that the shelves are strong and sturdy. The end panels are well finished and have been admired by visitors to the library.

If shelving is ever needed for any of our other campus libraries, we would be happy if Sperrin Metal was included on our tender list.

Yours sincerely,

Ann Joyce Walsh,
Librarian

To Whom It May Concern:

Having dealt with Sperrin Metal Products Ltd on numerous occasions I have become acquainted with their excellent service standards.

The service provided has consistently been of a superior standard and every aspect of each project from site survey to after sales support has been carried out professionally and proficiently.

On this aspect I would thoroughly recommend using Sperrin Metal Products Ltd as a storage systems provider.

Yours truly,

Carl Murphy
